CATAMARANS

SilverCat 34CC and 34HT offer agile running performance and superior lateral stability. Providing a softer ride, greater handling, and fuel-efficiency, you can get home faster with only 2 engines.

Gulf Craft continues to speak to the heart of every boating enthusiast, embracing change, evolving technology, and unrivaled craftsmanship. Giving you comfort and stability at high-speed cruising, SilverCat is the fishing boat of the future.

This is the way we approach the future, by relying on our heritage. True to Gulf Craft founder's love of the sea, SilverCat is the latest addition to the Silvercraft family of boats.

Going back to Gulf Craft's history to plan and design boats for the future, SilverCat Catamarans were built for leisure and off-shore fishing.

Catamarans have always been a part of our company's legacy of building comfortable, durable, and fast boats, proven by the success of our racing powerboat "Terminator".
